

# The `xcite` package\*

Enrico Gregorio<sup>†</sup>

2020/01/21

## 1 Description

This package is a stub that just loads `xr`, that, starting from version 5.05 (released 2019/07/20) includes the facilities previously in `xcite`.

This package originated from a question in `TeX.StackExchange.com`.<sup>1</sup>

## 2 The macros

```
1 <*package>
   Load xr
2 \RequirePackage{xr}
3 \endinput
```

## Change History

v1.00		v16383.99998
General: First version	..... 1	General: Final version
